

Giblink 2.0 Global Revenue Sharing. Social/Business Networking.

Giblink the so called, pioneer of paid business social networking, have revised their giblink 1.0 to giblink 2.0. This company's first 180 days was off the charts for any paid internet business. Giblink explained that their initial growth was much faster than they Expected. The first 180 days was tremendous growth period for this paid business social network, new comer. This is an exciting time to be a part of something so innovative and for reaching the social/business network. Giblink said the combination of social networking meeting home based business was terrific.

Giblink's accomplishments after just 180 days in business include:

- Staff of 26 people
- 100+ Online Events
- 160+ Countries
- 600+ Clubs
- 2800+ Blogs
- 4000+ Classified Ads
- Largest Paid Business Social Network in the World (30,000+ members)
- Over \$5,000,000 Paid In Commissions In Just the First 180 Days
- Established the Global Revenue Share Concept in the Marketplace

Value and Use of the Social Business Network

One of the most important things giblink learned over the first 180 days concerns how members used the social/business network website. Giblink have found that most giblink members don't understand the full value of social/business network and most would like help in the marketing of the social/business network to others. Giblink believe the next two items hold the key to keeping a long-term stable growth. Giblink conducted online interviews with members during our first 180 days. Giblink found members did not completely understand the value they had in the social/business network community itself. Most of giblink's members did not understand the full potential of Social/Business Networking or how to use all the many features of the giblink 2.0 community.

Giblink found that was particularly true of members who decided not to renew the service. Giblink also found some members did not have working knowledge of the many features of the giblink community, these things were:

- Creating your own business and personal profile online
- Searching and connecting with 30,000+ entrepreneurs from 160+ countries
- Building your own network of people – directly connected to
- Ability to MasterMind with other entrepreneurs – share and test business ideas
- Socializing with others who have common interests
- Having your own Blog
- Posting Classified Ads
- Joining a Club or starting your own
- Attending Events or having your own
- Chatting online with members
- Sending eCards
- Uploading and sharing pictures
- Viewing and sharing Videos
- Maintaining and sharing your Calendar online
- Being kept up-to-date through newsletters and our community gibNews feature
- Using our gibSales feature to expand their monthly income

So what is giblink's vision?

“gibLink will dominate the global business industry with its unique approach to filling a void common to all businesses and entrepreneurs around the world.”

Many analysts also believe that a Business / Social networking site offering a host of business and social tools that shared the revenue amongst its Members would create an amazing global income generating wave, unlike any seen before on the net.

“A social/business revenue sharing income site would top 200 million+ users quickly.

It would without a doubt become a Global Phenomenon.”

gibLink in combination with the gibLine is the world's first revenue sharing, Web 2.0 community designed to promote and expand your existing business and deliver 70% of its revenue back into the hands of community members. It positions the average individual to take advantage of the largest Financial Boom, in the Biggest Marketplace the world has ever seen.

Last but not least, should you join giblink?

You should join giblink, only if you want to be a winner in this LIFE.
