

Make Buying Property and Arranging Residency in Switzerland a Reality

Have you always fantasized about living in a beautiful location, enjoying a relaxed lifestyle, and waking up every morning with a contented smile on your face?

[Swiss Sun](#) is a well-renowned estate agency which specializes in helping UK residents who are looking to emigrate turn their dreams into a reality. They offer personalized help and guidance in the areas of Swiss property investment and residency. With offices in the UK and close contacts in Switzerland Swiss Sun will take all of the hassle out of your life-changing move to the home of cosy chalets, gourmet chocolate, fine watches, and some of the most stunning landscapes in the world.

So why choose Switzerland?

On a purely practical note many UK, EU and US citizens looking for a change of scene opt for the attractions of Switzerland, partly because it is not itself included in the EU and so offers a safe, stable tax haven making it the perfect investment choice for foreign buyers.

As well as this the country is politically laid back, boasts a generally high quality of life, and offers diverse and welcoming environments to cater to just about every taste.

The Idyllic Landscapes of the Valais Region of Switzerland

Swiss Sun specialize in the breathtakingly beautiful Valais region of the Swiss Alps, and offer clients guided trips around the main areas so that they can get to know it for themselves. It is a stunning and varied valley, ringed by snow topped mountains, which descends from the glacial source of the River Rhone all the way down to Lake Geneva. The landscape is distinguished by features like the majestic Matterhorn, the Aletsch glacier, natural thermal springs which account for the profusion of excellent spas, and miles upon miles of pine forests. Whether you are looking for untouched, authentic villages nestled in secluded hamlets or vibrant resorts offering everything a contemporary traveler could want, Swiss Sun will have a choice of offerings to tempt you. Potential property buyers who will need to return to the UK frequently for business or who don't want to feel isolated from friends and family back home need not fear. There is a popular airport in Geneva which flies to a range of UK destinations, as well as a smaller airport in the resort of Sion which can accommodate private jets ...making your Bond-esque getaway into the mountains a distinct possibility.

So, now that you have experienced the beauties of the Valais region Swiss Sun can walk you through their impressive portfolio of exclusive apartments and chalets so that you can find the right property for you.

Buying Swiss Property as an Investment and Applying for Swiss Residency Minus the Hassle

So you have found your dream home in Swiss Sun's comprehensive portfolio, but you're not sure where to go from here? Do not fret; you are working with experts! Swiss Sun can help you establish the financing for your property purchase in Switzerland, with available interest rates starting as low as 3.9%. They will guide you through the bureaucracy, help obtain the necessary permits, and make the experience as simple as possible. If you are hoping to treat Switzerland as your new home, and intend to reside in the country for over 6 months of the year, they will even be happy to help you apply for Swiss Residency. Now that is the type of service you can count on! So, whether you are looking for a safe investment or starting a brand new life in one of the most beautiful regions in the world, contact Swiss Sun today and let them turn your dream into a reality.
