1. Use the classified pages to place free ads about any of your products or services. This gives you the chance to reach thousands of members who are interested in what you have to offer. With this type of targeted promotion, you are sure to increase sales.
2. In addition to the classified section, you can also place your ads in the free traffic exchange. Again, this is a chance to expand your company's reach.
3. Through the use of the community system, you can generate qualified leads for free. If you are like most, the more leads you have on hand the better. And since you can get them for free, you have nothing to lose.

With the ability to list free ads, there is no reason to ignore the AdlandPro classifieds. You never have to pay a dime, but you still get to take advantage of all the benefits listed above. There is no point in paying for untargeted ads when you can save money by becoming an AdlandPro member.
