

Dating Advice: Fashion Tips for Single Women for Spring 2008

Dating and meeting new people does take some effort. You can't just roll out of bed with no make up, head out to a bar, a friends party or a [speed dating event](#) with a long face and expect to meet a cute guy. You need to exude confidence and a sense of fun – after all, laugh and the world laughs with you, cry and you cry alone. You also need to look good and make the most of yourself. While some people can pull off a retro look or a totally unique style, others prefer to look good in the latest styles of the season. If you're not sure, play it safe and follow these fashion tips for spring 2008.

1. This spring the colors are all bright and bold. Yellow, orange, rose, lavender and silver are all hot choices.
2. Sheer Tops and shirts are essential items this spring. Paired with a summer tank they can create a sexy look for spring as well as summer.
3. For fabrics think flowers! Floral prints are in, be they big and bold or small and subtle, either way they're great for cute spring dresses.
4. Tie Dye is a fashion trend that is making a comeback from the 70's. Steer clear from cheap Thai or Indian imports though, the idea isn't to look like a backpacker!
5. Thin Belts look great with almost any outfit or style.
6. High Waisted pants, skirts, and even shorts are de riguer this spring, the low slung look is out.
7. Sequins are in this spring! Dress, tops, tunics, skirts... you name it, if it's got sequins you can't go wrong.
